

QUESTION: We are PCSing to Ft. Wainwright in December. What are your recommendations regarding having a vehicle winterized? I have heard lots of different input but am wondering what really has to be done and what can maybe wait a little as finances are tight right now. Thanks!

ANSWER: MilitaryHomefront/Fort Wainwright is a DoD website with information on all military installations that are allowed to post information on the worldwide web. Relocation Readiness Program managers for all five branches of the armed forces are responsible for keeping their individual websites updated. See page 12 in the Fort Wainwright MilitaryHomefront link below for complete winterization tips. You can find information on car winterization. There is also information on traveling to Fort Wainwright; having your vehicle winterized after arrival and winterization preparation for shipping a vehicle to Fairbanks in the winter months.

Check [www.militaryhomefront.dod.mil](http://www.militaryhomefront.dod.mil) for this information or visit the Relocation link on the Ft. Wainwright homepage (left-hand side, near the top) at [www.wainwright.army.mil](http://www.wainwright.army.mil).
