

QUESTION: I live in Siku Basin on Ft. Wainwright. My house backs up to the gate and I am very concerned at the amount of illegal traffic we get after the gate closes. The MP's will make random checks out here, but that is not enough. I have asked the gate guards what can be done, and they say that is not their jurisdiction after hours. Why can't they post guards out there 24 hours? We have several wives out here who are concerned for their safety. It is a sad day when I feel I cannot walk my dog at night due to creepy people walking our neighborhoods. I would be happy if you could inform us how to contact the right people to see if something can be done to alleviate this problem.

ANSWER: First and foremost if persons are observed illegally entering the installation through Trainor Gate when the gate is closed the Military Police should be immediately notified. Trainor Gate does not have enough daily traffic entering or exiting to justify a 24 hour operation.
