

Alternatives Considered

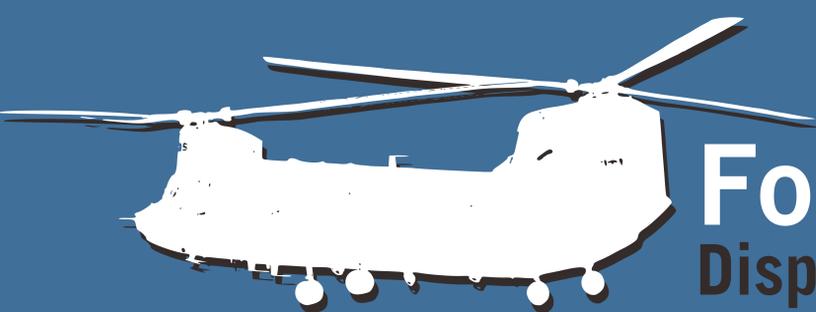

The Army considered a range of alternatives for the disposition of Hangars 2 and 3. Four screening criteria were used to determine which alternatives were reasonable and had the ability to satisfy the purpose and need for the Proposed Action:

- **Screening Criterion 1:** The action must directly address the disposition of Hangars 2 and 3.
- **Screening Criterion 2:** The action must be compatible with the current and future military mission at Fort Wainwright.
- **Screening Criterion 3:** The action must not be prohibitively expensive.
- **Screening Criterion 4:** The action must have a reasonably foreseeable funding source, or a mechanism for obtaining applicable and timely funding.
