RE: Transfer of Munitions Debris

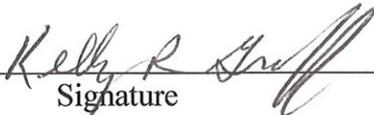

Dear Mr. Wilfer:

Jacobs Engineering Group, Inc. (JEG) owns the munitions debris staged at Fort Wainwright, Alaska. JEG proposes a no cost transfer of munitions debris to C & R Pipe and Steel Inc. providing the following conditions are met.

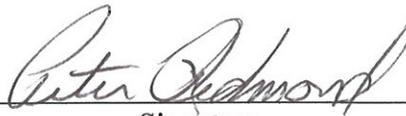

1. All of the munitions debris will be placed into a smelter and recycled.
2. A chain of custody will be maintained and a certification of smelting will be provided to Jacobs.

"This certifies that the material listed has been 100 percent properly inspected and, to the best of our knowledge and belief, are free of explosive hazards, engine fluids, illuminating dials and other visible liquid HTRW materials.

Certified this 18th day of Oct 2010 by Mr. Kelly Groff, UXO Safety Officer, Jacobs Engineering, Taku Gardens, Fort Wainwright, AK.
