Re: Former Communications Site Hot Spot Removal Action, Draft Work Plan
Addendum, June 15, 2011

Dear Mr. Malen:

The Alaska Department of Environmental Conservation has reviewed the work plan addendum. The plan is to remove PAH contaminated soil located near monitoring well 62. A groundwater sample will be obtained before excavation begins and confirmation samples will determine when the excavation is complete.

DEC has no objection to the implementation of this work.

Sincerely,

Deb Caillouet
Environmental Program Specialist
