Hi Bob,

Here's a Taku request from Marty. Please let me know how you'd like us to proceed. Thank you.

Subject: RE: Taku Request

Terry,

I am assisting ATSDR in their assessment of historic site use of the Taku Gardens area. I would like to request an Excel file or Access database of the data reported in the 2007/2008 Drum and Debris and PCB Removal Report prepared by Jacobs. Analytical data reports from the lab are included in the report, but as you can imagine are a bit cumbersome to easily search through. I would presume that the electronic data from the lab was run through DataStream for review so even a flat file from that would be helpful.

I also wanted to ask for clarification on some text on page 3-14 which states that 2007 results from sidewalls and the excavation floor at Building 15/17 were not reported as the areas were later excavated in 2008. Are these results reported elsewhere? If so, can you point me in the right direction.

Much Thanks :>)

Hi Marlena,

Please email what you're looking for and I'll forward your request to the Corps for approval, which my contract requires before I provide project information to anyone. Thanks!

Terry
